## TECHNICAL DATA SHEET - ISO 10545 AVERAGE VALUES

3	Water absorption	Conforms	14	Stain resistance	Class 5
6	Deep abrasion resistance	Conforms		Slip resistance DIN 51130	MATT R10
8	Thermal expansion coefficient	≤9 MK-1		Slip resistance DIN 51097	B
9	Thermal shock resistance	Resistant		Pendulum test	PTV L (Low slip potential)
12	Frost resistance	Resistant			
	Resistance to low concentrations	ULA to ULB			
13	Resistance to high concentrations	UHA to UHB			
	Resistance to domestic chemicals and additives for swimming pools	UA			

## SUSTAINABILITY INFORMATION

The production system and management choices adopted allow us to keep consumption of natural resources and pollution down to a minimum. The manufacturing of the atomized paste (base) and powdered enamels (colour), is done by dry pressing without the use of water, creating a more durable quality product and avoiding the production of wastewater discharge. The firing is done using a modern electric kiln, powered by green energy produced from renewable sources (wind turbines and solar power) by one of the group's companies, avoiding the use of fossil fuels and atmospheric emissions. All scrap and waste are collected separately and sent for recycling. Made within EU.

## CLEANING + MAINTENANCE ADVICE

## INITIAL WASHING

The initial washing is fundamental for good treatment results. The initial washing is aimed at removing any laying residues and building grime.

**Product: Deterdek Pro**

## ROUTINE MAINTENANCE

The aim of the routine maintenance is to remove dirt and scuff marks. Must be carried out regularly.

**Product: Cleaner Pro**

## SPECIAL MAINTENANCE

Special maintenance is carried out in case of very stubborn dirt, when the routine maintenance is not enough to restore the original look of the surface.

**Product: Fila PS/87**

Please see [www.filasolutions.com](http://www.filasolutions.com) for methods of use, dilution and coverage.
