

Material: **Porcelain** | Appearance: **Marble** | Application: **Walls**

M-Orphic

M-Orphic's reinterpretation of quartz achieves a striking effect for agate, in three colour variants. Magnified in both its size and its aesthetic, quartz dominates the design of interior spaces with its large format slimline large slabs, made even more exquisite by the glossy mirror finish of the ceramic surface.

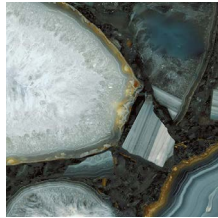

*9.5mm thick only

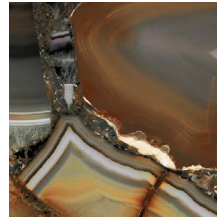

Shade variation: V3 - High

Cleaning and maintenance advice

Initial washing

The initial washing is fundamental for good treatment results. The initial washing is aimed at removing any laying residues and building grime.
Product: Deterdek Pro

Routine maintenance

The aim of the routine maintenance is to remove dirt and scuff marks. Must be carried out regularly.
Product: Cleaner Pro

Special maintenance

Special maintenance is carried out in case of very stubborn dirt, when the routine maintenance is not enough to restore the original look of the surface.
Product: PS/87 Pro

Please see www.filasolutions.com for methods of use, dilution and coverage.
