## Sustainability information

### Cleaning and maintenance advice

#### Initial washing

The initial washing is fundamental for good treatment results. The initial washing is aimed at removing any laying residues and building grime.  
Product: Deterdek Pro

#### Routine maintenance

The aim of the routine maintenance is to remove dirt and scuff marks. Must be carried out regularly.  
Product: Cleaner Pro

#### Special maintenance

Special maintenance is carried out in case of very stubborn dirt, when the routine maintenance is not enough to restore the original look of the surface.  
Product: PS/87 Pro
