

Material: Porcelain | Appearance: Concrete and Metal | Application: Walls and floors

# Koimo

Koimo brings together two architectural icons – concrete and metal – in a sophisticated porcelain collection inspired by contemporary design trends. The surfaces recall the tactile allure of stone with subtle concrete undertones, balanced by the industrial character of metallic reflections. The collection lends itself perfectly to both elegant and dynamic interiors.

## Sustainability information

## Cleaning and maintenance advice

### Initial washing

The initial washing is fundamental for good treatment results. The initial washing is aimed at removing any laying residues and building grime.  
Product: Deterdek Pro

### Routine maintenance

The aim of the routine maintenance is to remove dirt and scuff marks. Must be carried out regularly.  
Product: Cleaner Pro

### Special maintenance

Special maintenance is carried out in case of very stubborn dirt, when the routine maintenance is not enough to restore the original look of the surface.  
Product: PS/87 Pro

Please see [www.filasolutions.com](http://www.filasolutions.com) for methods of use, dilution and coverage.
