

Environmental Policy

Our Environmental Commitment

Grestec Tiles Ltd recognises that its business activities interact with the environment in various ways. Fully aware of the urgent challenge posed by climate change, they are committed to reducing their carbon footprint through sustainable practices. These include minimising greenhouse gas emissions, improving energy efficiency, and supporting initiatives that promote climate resilience.

Key Operational Areas & Corporate Responsibility

These activities primarily impact the following core operations:

- Core Supply Chain: Procurement, importing, storage, and distribution of products for the commercial and residential construction sectors.

Grestec Tiles Ltd recognises its responsibility to protect the environment at every opportunity, act as a good neighbour within the community, and maintain a safe, healthy workplace for its employees.

Directors' Commitments

As such, the Directors of Grestec Tiles Ltd are committed to:

- Continuous Improvement: Continually improving the environmental performance of all business activities;
- Sustainable Offerings: Enhancing the environmental benefits delivered by its products and services;
- Pollution Prevention: Preventing pollution across all operational stages;
- Regulatory Compliance: Complying fully with all relevant legal, regulatory, customer, and third-party requirements;
- Strategic Objectives: Establishing measurable environmental objectives aligned with the strategic direction of the business, while actively managing associated risks and opportunities;
- Impact Reduction: Achieving these objectives to systematically reduce environmental impact;
- Best Practices: Adopting industry best practices across all operations wherever practicable.

Action Plan & Execution

The organisation will fulfill these commitments by:

- ISO 14001 Certification: Maintaining an Environmental Management System independently certified to ISO 14001:2015 standards;
- Impact Assessment: Identifying and quantifying the environmental impacts of business operations to prioritise reduction efforts;
- Performance Monitoring: Running a continuous performance improvement program to ensure key objectives are met;
- Stakeholder Engagement: Engaging employees, suppliers, and customers to ensure shared understanding of their roles in meeting these commitments;
- Staff Empowerment: Training staff in environmental protection practices and fostering employee-led sustainability initiatives;
- Operational Integration: Integrating sustainable practices into every level of daily operations;
- Waste Minimisation: Diverting waste from landfills through generation reduction, material segregation, and recycling;
- Sustainable Procurement: Prioritising the procurement of product collections containing recycled content wherever feasible;
- Ongoing Review: Monitoring and reviewing environmental impacts on an ongoing basis.

Policy Statement

The implementation of this policy is fundamental to the success of Grestec Tiles Ltd and must be supported by all employees as an integral part of their daily work.

This policy is publicly available to all interested parties upon request.

Signed on behalf of Grestec Tiles
